INTERVIEW WITH SECRETARY GENERAL

Made by: Aya Warner en Sara Sahin

Translated by: Jasper Mieras & Yad Said

Mikail, what does it mean to be secretary general and what exactly is your job?

"The secretary general is ultimately responsible for this entire conference. Of course we have an organization of 27 students, which we call the Organizing Committee, in other words the OC. At the top of this organization is the secretary general. He is therefore ultimately responsible for everything that takes place. I make sure that the organization knows what to do, that the surrounding parties know what it is about, and I make the important decisions, such as the theme and the issues."

If you could go back in time, what era would you go to and why?

"I would then hesitate between 2 different eras: the 80s, because that is of course a guilty pleasure for everyone. Otherwise I would like to go to about 1600, because that is such a beautiful renaissance period. Then I would of course the Ottoman Empire life, namely Constantinople nowadays Istanbul, that's a really cool place."

Last year you were deputy secretary general of internal affairs. Is there a difference between your tasks last year and your tasks now?

"Last year I was the DSGI, which is also in the secretariat. Then there are actually three of you and together you have the most responsibility. I was mainly involved in internal affairs, which means that I was involved with the various parties inside, and I also had to find the speakers. This is all fun, of course, and I naturally knew I could handle a more responsible position in the OC as well. I was quick with other people to see where I could help, some even said I was doing too many tasks. So what I did last year was only a small part of the job, and not nearly as much responsibility. This year I am secretary general and then full responsibility comes into play, although this was not the case before. Then I shifted it to the other OC, aka Moos, but now I'm the one who is blamed for everything. This was quite a switch from first "Hey, now you're at the top of the list, so now you have to make sure this happens."

Which band or musician would you like to party with?

"I only have one idol and that's Michael Jackson. If I could ever share a stage with him or at least listen to him live, that would be fantastic."

What improvements do you hope to see compared to last year?

"Last year it went very well, of course, there were all people who virtually had no or little knowledge about the MUN, and who put down a very good presentation in a short time. So in general I would be very proud if we could continue that line, that would be really great, but of course I also hope to see that it is a bit more professional, and that the students know well what it is about that makes them enjoy it more. I really hope it shows well this year."

THIS YEAR'S THEME:

EMERGING TECHNOLOGIES IN SHAPING MODERN SOCIETY

The future is just one click away.

One cannot deny that modern technology is a catalyst for the development of our changing world. Emerging technologies are growing to have a bigger impact on the way we live, work and socialize with each other in our day-to-day life. The opportunities that stem from these technological advancements are seemingly endless; ranging from increased efficiency to augmented reality. Many questions arise from issues such as privacy and the use of Artificial Intelligence.

When do we prefer freedom and privacy over security? How far are we willing to change and offer our current habits and routines to implement new technological advancements in life? This year's LmunA theme encourages delegates to acknowledge the current influence of technology while also debating the morality and ethical dilemmas imposed by the consequences of emerging technologies.

Merchandise

Warning: limited stock

Hoodie: €25,-

Socks: €5,-

Sunglasses: €5,-

Mug: €10,-

Bottle: €5,-

Beanie: €12,50

Merchandise - once you have it, you love it.

LmunA 2022!!!

Here, a few photos throughout the years to celebrate the 15th anniversary of LmunA. It began in 2007 and is becoming more and more popular. As this year we received students from 17 dutch schools and 5 german schools, as well as 1 student from Venezuela.

★★★★ LUNCH RATING ★★★★★

Jasper Mieras

"It's delicious because pesto, mozzarella and tomato is the best!!"

Jaap Löwenthal

"It was really good. I had 2 sandwiches with pesto, mozzarella and tomato. It had something sweet and it was perfectly balanced."

Quentin Wild

"The lunch wasn't bad, it tasted surprisingly well compared to other schools. I think the sandwich with turkey breast."

Dear, dear delegates,

We are so enthusiastic to welcome you all to the 15th anniversary of the Lorentz Model United Nations in Arnhem. We, Sade Hendriks, Aya Warner and Sara Sahin, have done our utmost best to provide everyone with beautiful content. Our goal is to not only make pictures but also to capture memories.

A big thanks to the Organising Committee who have worked very hard this past year to make this amazing conference happen. Without them, we would not be where we are today.

All our expectations about the first day have become reality and we, the OC, are excited to welcome you tomorrow for the second day of LmunA!

Love,

The Department of Communications,
Sade Hendriks, Aya Warner and Sara Sahin
