

LMUNA TIMES III

Third edition

INDEX

3rd day of LmunA

- 03** committee photoshoot
- 06** Drip or drop?
- 07** *Interview with Ms. Leusink*
- 08** About last night
- 09** Crisis!
- 10** Photos of the day
- 11** *Editor's note*
- 12** *The end*

COMMITTEES

LmunA 2022

GA1

1. Reviewing cyber-hacking as a breach of international security
2. Preventing countries from further testing on Lethal Autonomous Weapon Systems
3. Addressing China's treatment of Uyghur muslims

GA2

1. Establishing an international framework regarding the expenses of health care
2. Regulating Corporate Social Responsibility for international firms and businesses
3. Cogitating the efficacy of economic sanctions on international trade

GA4

1. The question of technological development on increasing the gap between MEDCs and LEDCs
2. Examining the crimes against humanity in North Korea
3. Creating measures to combat neo-colonialism in Africa

GA6

1. Establishing limitations on the excessive use of social media to prevent cyberbullying
2. Investigating the utilization of facial recognition as means of regulating human behavior
3. Discussing the accountability of criminal war acts

COMMITTEES

LmunA 2022

HSC

1. Simulating the Soviet-Afghan proxy-war in the context of the Cold War
2. Establishing rules upon the use of nuclear weapons after the bombings of 1945

UNCOPUOS

1. The potential legal implications of breaches of privacy in relation to satellites in global space exploration
2. Establishing regulations on the growing commercialization of space activities
3. Combating the issue of pollution in space

UNEP

1. Providing aid for LEDCs in the struggle against climate change
2. Creating a program to enable smallholder farms to increase the accessibility to agricultural technology
3. Establishing rules to combat overfertilisation

ECOSOC

1. Creating a sustainable programme for the recycling of clothing
2. Contesting the economic effects of Artificial Intelligence on global unemployment rates
3. Establishing regulations for the treatment of convicts

COMMITTEES

LmunA 2022

UNHRC

1. Protecting individual rights to privacy in the digital age
2. The question of the Venezuelan humanitarian crisis
3. Combatting the issue of forced begging as a form of human trafficking

CSW

1. Ensuring access to maternal health-care in LEDCs
2. Protecting women against sexual violence
3. Discussing the legality of prostitution

SC

1. The question of the Afghanistan Conflict
2. The question of the ongoing Nagorno-Karabakh conflict

UNICEF

1. Combating the issue of online child sexual exploitation and abuse
2. Discussing the influence of technology on the development of child cognition
3. Preventing the further suffering of migrant and displaced children

DRIP OR DROP?

Is this Lmuna or a fashion show?

Lmuna has always been a formal event, but somehow people let their creative side take over their fashion.

Interview with MUN director Ms. Leusink

How many Lmuna's have you participated in?

"First one, I think was with Lenneke as SG, so that was in 2018 or 2019. So for LmunA's this is my 3rd or 4th one. I've also been to Stuttgart, Copenhagen, Stockholm and one in the Netherlands, so I guess around 8.

Which speaker would you like to see for the next opening ceremony?

"I think I would love to see the mayor again. It's been a couple of years since he's been here and I think it's really nice for the city of Arnhem to have events like this. So, I would love to see the Mayor again, but I also think that it depends on the theme of LmunA.

Did you enjoy the party last night ?

"Yes, definitely! The venue was amazing, everything went very smoothly, music was good and overall, it went really well."

In what timeline would you like to live?

"This is a really hard question because I love the timeline I live in and I love the technological advances we see. So much more is possible than was thought 100 years ago.

ABOUT LAST NIGHT...

!CRISIS!

Article 1: "Aerial photographs Reveal Threats"

An American U2 spy plane has just unearthed shocking information which puts the nation in immense danger. The pictures seem to showcase the Soviet Union building "offensive missile and bomber bases in Cuba" which are said to handle "missiles carrying nuclear warheads up to 2,000 miles".

Kennedy stated that confirmed intelligence indicates that the missile sites in Cuba consist of two types. One of which would be capable of operating medium-range ballistic missiles. These could carry nuclear weapons more than 1,000 nautical miles - this includes Washington, the Panama Canal, Cape Canaveral, or Mexico City. The second type is for intermediate range ballistic missiles which range for more than 2,000 nautical miles. These could hit most of the major cities in the Western hemisphere including cities in Peru and Canada.

Article 2: "Iranian Drones to Russia"

United States of America's National Security Advisor Jake Sullivan has just revealed that the Islamic Republic of Iran is planning to transfer hundreds if not thousands of combat drones and other such UAVs (unmanned aerial vehicles) to the Russian Federation. In addition, there are also plans to train Russian operators in Iran. USA published satellite imagery that allegedly displays a military delegation of the Kremlin visiting the Shahid Karimi UAV base, which is run by the "Islamic Revolutionary Guard Corps Aerospace Force". This particular establishment is noted to have been involved in both Iranian and proxy drone operations in Syria.

Article 3: "Soviet Challenges U.S. Right to Blockage"

As the United States attempts to impose a quarantine on the shipment of weapons of any type to Cuba, the Soviet Union challenges this right. The Soviet asserted that the Cuban regime could make "whatever defense arrangements it pleased".

The Russian Federation has announced that they were taking "suitable measures to enhance their combat readiness" and warned that the United States is risking a thermonuclear war with their naval quarantine.

A SPECIAL THANKS TO...

To end things on a good note, we'd like to thank some people who have put a lot of effort into making Lmuna great this year.

We'd like to start off with Karsten, one of our former students, has been a great helper this Lmuna. Currently, he is a nurse, and when we asked him how he applied his knowledge this Lmuna, he answered: "Well I used my knowledge in seeing how people are doing and how they can be helped, but it's been a quite fluent Lmuna. I have not done anything professionally for anyone, so it's good."

Of course we can't forget Christiaan and Tim. They have been amazing helpers this year and they deserve all the credit. They have been there for everybody in times of panic and chaos. Chris and Tim were always available just like every other Lmuna so far!

We are glad to have them.

The end

Best delegates,

I am so incredibly proud to announce that we did it; we wrote the LmunA Times for each day, made the committee pictures, updated you on all our social media platforms, and lastly, we created memories for you to look back at.

This LmunA has been great in various ways and we hope that the majority of you have also enjoyed the conference. We have put a lot of time and effort into this so, we are excited to see that all of our wishes have come true.

Unfortunately, this is the last day of the conference, which also means that my time as Head of Communication is now over. I have enjoyed the preparing, the fun and even the stress.

I wanted to thank Aya Warner and Sara Sahin, my deputies, for always offering help whenever they saw I needed it the most. I really would not know what I would have done without them.

With that said, I hereby close the LmunA Times 2022!
